**ABOUT:** **Elephant Family's** mission is to save the Asian elephant from extinction. Working on the ground with local communities, Elephant Family tackles the greatest threats to Asian elephants such as loss of habitat, poaching and illegal capture from the wild. In addition, by helping Asian elephants we also help other extraordinary wildlife that flourishes in its habitat, including tigers, orangutans and rhinos. Elephant Family is supported by its presidents TRH The Prince of Wales and The Duchess of Cornwall.

**Space for Giants** is an international conservation charity with 15 years of experience in the conservation and management of African elephants and the landscapes they depend on. We aim to secure a future for the largest mammals on earth forever, to be enjoyed by humanity forever, by ensuring that they have the space and security to live and move freely in the wild forever. We work on the ground every day to provide a secure future for elephants, the places they live and the species that share their range. Space for Giants is supported by its patron, Evgeny Lebedev, owner of the Independent and Evening Standard newspapers.
